PLAN SUBMITTAL AND PLAN CHECK PROCESS
Submit the package to the Department of Building and Safety. Plans will be reviewed for compliance with ZC and LARC. Instructions on how to obtain compliance will be provided on a correction list. Clearances from City Departments may be required. They include (but are not limited to):
- Department of Water and Power
  Work adjacent to or within 10 of DWP easement(s)
- Department of Public Works
  Bureau of Engineering (BOE)
    Curb cuts, sewer connection, address approval, and/or site drainage
  Bureau of Street Services (BSS), Urban Forestry Division (UFD)
    Removal of trees in the parkway and/or onsite trees
  Bureau of Sanitation (SAN)
    Low Impact Development and Storm Water Pollution Mitigation
- Department of City Planning
  Historical Preservation Overlay Zone (HPOZ), Specific Plan, and/or front yard landscape
Once all corrections have been made and all clearances have been obtained, permit(s) will be issued, plans will be stamped approved, and construction can commence.

CONSTRUCTION AND INSPECTION
Begin construction. Should the construction vary from the approved plans, please return to plan check for approval.
To schedule an inspection, call 311, (866) 4LACITY, or (213) 473-3231
go to the mobile app, LADBS Go
go online, http://ladbs.org
For each of the following stages of construction:
- Groundwork: Reinforcing steel, forms, and groundwater plumbing and electrical installed but before concrete is poured.
- Rough: Uncovered framing work completed and plumbing, electrical wiring, and ducts installed.
- Insulation: Insulation installed.
- Drywall/Panels: Drywall/Panels installed.
- Final: Construction completed.
- Certificate of Occupancy: After final approval, a certificate of occupancy will be issued for additions, new buildings, and conversions. Remodels/repairs of existing building do not require a new certificate of occupancy.

1828 Sawtelle Blvd, 2nd floor
West Los Angeles, CA 90025

OWNER-BUILDER
The owner of the property may act as their own general contractor on the job, and either has employees (subcontractors) working on the project or does the work themselves. The work site must be their principal place of residence that they have occupied for 12 months prior to completion of the work.

To find out more information and know the risks of Owner-Builder, visit California State, Department of Consumer affairs:
cslb.ca.gov/Consumers/Know_risks_of_owner_-_Builder

HIRING CONTRACTORS
Before hiring contractors, know the risk of hiring an unlicensed contractor and visit State of California Consumer Affairs:
cslb.ca.gov/Consumers/Hire_A_Contractor

CONSTRUCTION HOURS
Monday - Friday 7:00am - 9:00pm*
Saturday* 8:00am - 6:00pm

*Under Hillside Construction Regulation:
by 6pm on weekdays and interior work only on Saturdays
**PURPOSE**

The purpose of this pamphlet is to provide guidance through the process of obtaining permits and inspections for repair, remodel, addition, conversion, and/or new construction of a single family dwelling and/or its accessory, such as garage, recroom, or accessory dwelling unit (ADU) per the Los Angeles Residential Code (LARC) Wood Frame Prescriptive Provisions (simplified method). Prescriptive provisions will not apply if the site has any adverse conditions.

**PERMIT AND INSPECTION PROCESS**

1. GET ZONING AND PROPERTY INFORMATION
2. DESIGN AND DRAW PLANS
3. PLANS SUBMITTAL AND PLAN CHECK
4. PERMIT ISSUED
5. CONSTRUCTION AND INSPECTION
6. CERTIFICATE OF OCCUPANCY ISSUED

**GET ZONING AND PROPERTY INFORMATION**

Each property has a Zoning designation that regulates the use, height, area, yards, and other specific regulations as dictated in the Los Angeles Zoning Code (ZC). To verify the feasibility of your project, visit one of the **Development Services Centers** or online at ladbs.org/service/check-zoning/information-about-zoning

And consult with all pertinent City agencies that may affect the project, e.g. City Planning Department and Department of Water and Power.

**DESIGN AND DRAW PLANS**

Create a submittal package with the following minimum requirements:

- **Plot Plan** - (to scale) show location of the street, street name, lot dimensions, existing buildings, area(s) of work, yard setbacks from the property lines and between buildings

- **Floor Plan** - (to scale) show proposed work and adjacent room(s) (if applicable), door and window sizes and location

- **Foundation Plan** - show foundation size and floor joists’ direction and sizes (if applicable)

- **Roof Framing Plan** - show roof rafters and ceiling joists’ direction and sizes

- **Elevations** - (to scale) show height of building

- **Energy conservation details** - Certificate of compliance (CFIR), www.energy.ca.gov/title24

- **Information Bulletin of Prescriptive Provisions** relating to one of the following scope of work:
  - Wood Frame Prescriptive Provision for One Story Residential Construction
  - Accessory Dwelling Unit Conversion of Existing Detached Structure
  - Attached Carport or Patio Cover
  - Detached Carport or Patio Cover
  - 6” Concrete Block Fence Wall
