

Automated Inspection Request System
888 LA4BUILD

Inspections can be scheduled, rescheduled or cancelled through the Automated Inspection Request System by calling 888 LA4Build (888 524 2845).

When calling you will be requested to enter the permit # for the intended inspection request. The permit type and address will be read for your confirmation. If the wrong permit was entered you can choose to enter another, otherwise confirm. Press *6 at any time to return to the main menu. Your options from the welcome menu include:

1. Pressing 1 to schedule an inspection
 - a. Select and confirm the desired inspection date from choices given
 - b. Choices of available inspections identified by code numbers are read off. Enter the inspection code and confirm inspection type. Choices of available Inspection codes are provided below for reference
 - c. You will be given the option to be notified by phone or text
 - d. Confirm contact number of choice
 - e. Inspection is scheduled
 - f. Cancellation/Rescheduling code (CC) is provided for future reference
2. Pressing 2 to hear a list of currently scheduled inspections
 - a. Currently scheduled inspections are listed should there be any.
3. Pressing 3 to cancel an inspection
 - a. Enter the CC #
 - b. Verify and confirm inspection to be cancelled
4. Pressing 4 to reschedule an inspection
 - a. Enter the CC #
 - b. Verify and confirm inspection to be rescheduled
 - c. Select and confirm the inspection rescheduled date
5. Pressing 5 to enter another permit #

Frequently Asked Automated Inspection Request System (AIRS) Questions

Question:	"What do I select if the inspection I would like to request doesn't match any of the inspection codes listed for my type of permit?"
Answer:	Select the inspection code that most closely matches the type inspection you want to request. When in doubt, select the "Rough..." inspection code or call 213-473-3231 between 7:00 am and 4:30 pm M-F for Customer Call Center assistance.
Question:	"If I make a mistake while entering the phone number, permit number, or the inspection code(s), is there a way to correct the mistake without having to complete the rest of the number digits required?"
Answer:	Yes, if you make a mistake while entering any of these three numbers, and you realize the mistake before you complete the entry of the required number of digits, simply press the "*"6" (star 6) key and you will be asked for the entire number again.
Question:	"Can I cancel, reschedule, add, or correct the information on an inspection that I already requested through AIRS?"
Answer:	Yes, inspections can be canceled or rescheduled using your 6 digit code only through our Automated Inspection Request System..
Question:	"I don't see Fire Sprinkler, Elevator, or Pressure Vessel permit types listed. Can I use AIRS to request inspections for these permits?"
Answer:	No, you must contact the inspector directly to request an inspection for Fire Sprinkler, Elevator, or Pressure Vessel permits. If you don't know the inspector's phone number, call 213-473-3231 between 7:00 am and 4:30 pm M-F for Customer Call Center assistance. This also applies to "Electrical" permits for "Public Safety" since an appointment is required.
Question:	"If I would rather talk to an LADBS representative, can I navigate back to the Customer Call Center while I am using AIRS?"
Answer:	No, hang up, call 213-473-3231 between 7:00 am and 4:30 pm M-F for the Customer Call Center.
Question:	"What is wrong if AIRS indicates that the inspection code(s) I have entered are "...not valid and the system is unable to process your request?"
Answer:	You are entering inspection code(s) for the wrong permit type or the inspection code(s) don't apply to your individual permit. Verify the correct permit type for your permit by referring to the upper left hand corner of the title block on your printed permit copy.
